

# Energy Fellow Position Description

AUGUST-MAY

RISING SOPHOMORES, JUNIORS, AND SENIORS  
ARE ELIGIBLE TO APPLY

Main Campus Energy Data 2020-2021

# Energy Fellow Position Description

Sustainability Fellows are ambassadors of environmentalism and sustainability to the Ursinus community. Fellows are passionate about work that makes a positive impact on the planet and our communities, as well as their own personal growth and professional development. Through this position, Fellows will develop critical thinking and leadership skills that will assist you in whatever you choose to do after your time at Ursinus.

**Like all Sustainability Fellows, Energy Fellows are expected to participate in a weekly 1-credit course**, taught by the Director of Sustainability, participate in Sustainable Move-Out, and Office of Sustainability events and projects throughout the semester. All Fellowships are two semesters long. The Energy Fellowship runs from late August through the end of the spring semester in May, or the length of one academic year.

## What Does an Energy Fellow Do?

Energy Fellows help to assess the college's greenhouse gas emissions (GHGs) and energy use. Energy Fellows analyze the College's data on emissions, convert it into graphs and charts that can be read by the public, and gain experience in communicating about GHGs with various stakeholders. If you are interested in gaining experience interpreting or analyzing data, working with spreadsheets, or learning about carbon emissions, an Energy Fellowship may be right for you! Data science, technology, computer science, public relations, LEED certification, and renewable energy are a few of the fields that utilize the same skills that students practice in an Energy Fellowship.

## Requirements

- Interest in energy, climate change, and greenhouse gas emissions
- Willingness to learn from and collaborate with others
- There is no specific major requirement to be an Energy Fellow!
- A rising sophomore, junior, or senior standing
- 2.5 GPA
- Available to volunteer during Earth Week in the Spring, and Sustainable Move-out in May
- Full-time student who will be enrolled at Ursinus for both the fall and spring semesters
